REPORT OF THE FIRE DEPARTMENT

To the citizens of North Hampton:

During the year of 1961 forty calls for assistance were received, of these 31 were in town as listed and their causes:

- 1 Flooded oil burner
- 1 Blow torch
- 3 Children playing with matches
- 2 Incinerators
- 5 Burning without permit to do so
- 1 Grass fire
- 2 Cigarettes
- 1 Accidental
- 6 Electrical
- 1 Wash down of fuel oil spilled
- 1 Automobile
- 1 Acetylene cutting torch
- 2 Calls for the firemen to hunt for lost children
- 4 Calls for resuscitator
- 9 Mutual Aid Calls — PAFB 1, Greenland 2, Rye 2, Hampton 4.

The estimated fire loss for 1961 was \$8,025.00 which exceeded 1960 by several thousand dollars. Good house-keeping means good fire protection.

There were 14 firemen who attended the Meadowood Fire School at Troy, N. H. sponsored by the N. H. Fire Chiefs Club. This school gives valuable training to the firemen pertaining to ladder work, oil fires, smoke masks, hose layout, etc.

In the month of August the firemen made a canvass of the town for donations to purchase a new up-to-date Dual Type Resuscitator which has been needed for a long time. The contributions exceeded the cost so the rest

of the money was used to purchase a Voice Horn to be used for lost persons and winter mittens for the firemen.

During Fire Prevention Week in October a fire drill was held at the school which was very successful. A film was also shown to the children of fire prevention.

I would like to remind all persons that it is unlawful to kindle any outside fires unless a burning permit has been granted to do so. These permits are available at your Fire Station on request pending weather conditions.

CURTIS D. MARSTON, Fire Chief
North Hampton Volunteer Fire Dept.

NORTH HAMPTON POLICE DEPARTMENT

At the close of 1961, this department's records showed an increase in 17 of the listed 26 calls. In the case of accidents, a tremendous increase reflects the growth of this town in just one year, and the added hazards we must cope with. For the coming year, this will be a more outstanding problem to be met by this department, and plans are being laid out to diminish this condition if the proper facilities are provided.

During this past year, we called many times during the year, in an effort to compile an accurate listing of all the inhabitants of the town. It will be noted in the statistics, we have increased from 1,900 in the official census of 1960, to 2,560 taken in December of 1961. There is no letup at the present time, and I feel there will be close to 3,000 in the spring 1962 count. This file is current and kept at the town office for the use of all citizens and officials in North Hampton.

This department along with interested citizens and other town officials pressed for traffic control lights at the intersection of route 1, and Atlantic Ave. At the present rate of progress, they should be installed about town meeting time. We are aware of other dangerous sections in town, and will attempt to meet them during this coming year.

With expansion so explosive, we shall attempt to adjust our facilities to meet the most pressing demands, and plan for future improvement as it may be needed.

FRANCIS W. HARNEY, JR., Chief

INDUSTRIAL DEVELOPMENT COMMITTEE

REPORT

The Industrial Development Committee met several times during the year. The possibilities of having an eighteen hole golf course come into North Hampton were discussed with the interested Real Estate Broker, the Zoning Board and the Planning Board. Together with the State Planning and Development Board, the Committee is currently completing a Community Fact Report which will enable the State Planning and Development Board to analyze what North Hampton has to offer in the way of industrial development sites.

Members of the Committee who have given freely of their time and efforts are: Edgar Hobby, Homer Johnson, Jr., Byron Kirby, Harry Loughlin and Laurence Martin.

Respectfully submitted,

LAURENCE A. MARTIN,
Chairman

REPORT OF LIBRARY TRUSTEES

The trustees acknowledge with appreciation the many gifts of books and periodicals from individuals and organizations during the past year. An outstanding gift was the set of the "Great Books" with the Syntopicon, given by Mr. William O. Schock. This is an acquisition not often to be found in a small library and we are very proud to own it.

Shelves were added to the children's room and the lighting was improved throughout the building. Screens were provided for two rooms and some folding chairs were purchased.

The library again entered the contest, sponsored by the State Library, for the best observance of National Library Week. Included in the events were a program of book reviews by Mrs. Marion Rudkins, sponsored by the "Friends" of the library. There were coffee hours sponsored by the Women's Fellowship and Ladies' Union, the Home Demonstration Group, the Bush and Bud Garden Club and the Senior and Junior Women's Clubs. There was a Story Hour for pre-school children and a film program for children of school age. Exhibits were provided by the Girl Scouts and the Brownies. A nature contest for children was conducted and prizes awarded by the Garden Club. North Hampton placed fourth in the contest which meant an honorable mention and a prize, a volume of the "Inaugural Addresses of American Presidents." This was our second consecutive year to receive a book award in the contest.

The "Friends of the Library" group was active throughout the year. Members met at least once a month to mend books, process books for circulation and work on the picture file. A series of story hours for pre-school children was held, the third annual tour of Portsmouth Colonial Houses was conducted and three

film programs for school children were presented. Refreshments were provided for an Open House for children, a Mid-summer Open House for the public and a "Coffee" for the teachers of the Elementary School.

The Woman's Club again provided an outdoor Christmas tree and a timer for controlling the lights was purchased with contributions from the Pythian Sisters, the Garden Club, the "Friends", the selectmen and the library. Members of the Garden Club again decorated the Library for the Christmas Season.

The librarian and trustees thank all who worked on special projects and those who volunteered to help the librarian with the clerical work.

The trustees wish to finish off a room in the basement for general use. There is a need for storage, a work room, shelves for magazines and a place to store some books which are used infrequently as the stock room is crowded to capacity. Plans must be considered for enlarging the building in the near future. The public is cordially invited to inspect the building with the librarian or trustees at any time.

Superintendent's Report

To: School Board Members and Citizens
of Supervisory Union No. 21

The writer, in this, his first report to citizens of Supervisory Union No. 21 is providing information about this Union with the hope that it will be of interest to citizens and add generally to the understanding of educational organization within our state.

There are seven elementary school districts and one Cooperative School District in this Supervisory Union.

In September of 1961 there were 2,688 elementary pupils in grades 1-8 inclusive in the towns of Hampton, Hampton Falls, New Castle, North Hampton, Rye, Seabrook, and South Hampton and 661 secondary students attending Winnacunnet High School, Cooperative School District No. 6, from the towns of Hampton, Hampton Falls, North Hampton, and Seabrook. It is of interest to note that the total of 3,349 pupils exceeds the total population of each of the several towns within the union except Hampton.

The organization of school districts into supervisory unions is required by action of the State Legislature to provide educational supervision and to ensure compliance with State Laws. The statutes require school board members within a supervisory union to meet between April 1 and June 1, annually, to choose a chairman, secretary, and treasurer of the supervisory union. Also at this meeting the joint board nominates a superintendent, if a vacancy exists, determines the superintendent's salary, and conducts such other business as may be necessary.

Before January 1 the supervisory union board adopts a budget for the next fiscal year, which budget includes

items necessary for the operation of the union. The budget is apportioned to the several participating districts according to a formula prescribed in the statutes. Each district is required to raise the apportioned amount at the next annual meeting of the district.

Supervisory Union No. 21 provides supervisory and administrative services for 178 professional staff members, 14 secretaries, 18 custodians, and 20 cafeteria workers. Bookkeeping services are provided for transactions amounting to \$1,791,126.00 as budgeted for the 1961-1962 school year.

The staff of your supervisory union office includes: a teacher consultant, an executive assistant to the superintendent, a bookkeeper and two secretaries. This staff is exceptionally competent, and indeed it must be to provide the administrative services required for a union of this size.

Miss Leota R. Whitcomb, Teacher Consultant of Supervisory Union No. 21 is a very able person. Her responsibilities are principally educational in nature. She works with individual teachers to improve instruction at the elementary level and assists the superintendent in many matters of educational significance. Curriculum (what we teach) and instruction (how we teach) are constant concerns of any school system. The why, when, where, and who also come under scrutiny, but the first two—content and method—are more subject to change as well as subject to demands for change by splinter groups. If change is to result in better education there must be a study of all factors involved.

During the school year 1960-61 a science curriculum guide for grades 7, 8, and 9 was completed and an arithmetic guide for grades 1 through 6 entered the final editing stage. Both of these projects, begun under the leadership of Superintendent of Schools, C. M. Green, were carried on over a two-year period by committees

of teachers, working with Teacher Consultant Whitcomb, and members of the State Department of Education. Each curriculum guide represents a thorough study of methods, materials, subject matter, and research, and each guide attempts to present the best thinking of those participating in the study.

It is a function of the supervisory union office to encourage study which will promote change and improvement in our curriculum, but to the committee of teachers who devoted much outside time and effort to this work much credit is due.

Because of these many changes in curriculum and instruction, it is important that we keep abreast of the best educational thinking. To this end the Teacher Consultant participates in many meetings, both within and without the Union. She frequently arranges for meetings of various staff groups, sometimes to share ideas within the group and sometimes to bring in new ideas. Many consultants have been invited to our schools in the past year—reading specialists, consultants in mathematics, science, foreign languages, guidance, testing, and others.

Through courses arranged by the Union Office, teachers have had opportunities to learn more about elementary school science, social studies, and mathematics, and about guidance, team learning, and audio-visual aids. With a large number of teachers enrolling in these courses our school system keeps alert and informed of latest methods and materials, and choosing the best from these, better education is offered to the boys and girls.

Miss Edith Hammond has served this union as Executive Assistant to the Superintendent for eight years. School Board members are well acquainted with the high quality of her work and the many hours required

to attend to the business affairs of the eight school districts. She has received national recognition and is presently serving her second year as President of the National Association of Educational Secretaries, a Department of the National Education Association. Above and beyond the planning and correspondence involved with such a position, she has traveled from one side of the United States to the other twice within the past year. She attended the NAES Convention and Institute in Orgeon in July, and the National Regional Meeting in California in November. As President she is frequently called upon as speaker at local and state meetings of Educational Secretaries, particularly in the Northeast area of the country; attends NEA Conventions as a delegate from her Association; and participates in the annual meeting of Presidents and Executive Secretaries of NEA Departments which is held in Washington, D. C. Her term as President will close with the annual convention in July to be held in Emporia, Kansas.

Miss Marjorie Lord competently prepares payroll manifests totaling approximately \$1,026,300.00 annually as well as other transactions for the eight school districts.

Two secretaries, Mrs. Jean Lovejoy and Mrs. Judy Batchelder effectively handle the volume of correspondence, reports, and general office routine, that one finds in a busy office. The secretarial work of a union office is quite different from most other offices and the training and experience these staff members have acquired is of considerable value to the supervisory union.

It may interest the reader to study for a moment the chart provided below which depicts the growth of the several communities within this school union. Please notice the comparative figures for the year 1950 and the year 1960.

COMPARATIVE STUDY

TOWN AND SCHOOL POPULATIONS

1950 - 1960

Towns Within Supervisory Union No. 21	Town Populations			School Populations		
	1950	1960	% of increase	1950	1960	% of increase

TOTAL	9,247	14,893		1,580	3,395	
Average Per Cent						
of Increase			61.1	114.9		

The total population of Supervisory Union No. 21 increased from 9,247 to 14,893—a percent increase of 61.1—while the school population increased from 1,580 pupils to 3,395—a per cent increase of 114.9. The total population increase is conspicuous, but one may also note that pupils attending public schools make up a significantly greater per cent of the total population in 1960 than did the pupils in 1950. Nearly one in every four of the total population is a public school pupil in 1960.

The citizens of these several towns should indeed be complimented for having provided the additional classrooms, staff and materials required by such rapid growth. Additional pupils is one reason for increased cost for education.

It is relatively an easy matter to show population growth, but the matter of improved quality of instruction is far more difficult to treat objectively. One thing is certain—there has been lively activity in the “pur-

suit of excellence" during recent years and there is every indication that such activity should continue.

The key to quality instruction is, as it always has been, a quality staff. One of the most important functions of the supervisory union office is the recruitment and selection of competent teachers. Personnel practices must facilitate the retention of able staff members and provide for the removal of ineffective personnel.

Much progress has and is being made toward improved quality of instruction. Television is being used to make superior teachers available to many pupils, improved audio-visual aids are used to liven teacher presentations, team teaching is being tried as a promising new method of instruction, large group instruction and team learning are being used experimentally in some schools, and increased guidance services to assist students in the selection of courses appropriate to their capabilities.

The writer wishes to acknowledge the cooperation which Superintendent C. M. Green provided during the transfer of administrative responsibility. It is to his credit that the Supervisory Union is well organized and that the transfer of responsibilities presented no unusual difficulties.

In the report an attempt has been made to acquaint citizens with the structure, functions, and staff of the supervisory union office. The reader will find information relative to developments within the particular school district in the Principal's report.

The writer is sincerely appreciative of the many kindnesses extended to him and he pledges his best efforts to the responsibilities and duties of this office.

Respectfully submitted,

JASON E. BOYNTON,

Superintendent of Schools

REPORT OF SCHOOL NURSE

To the Superintendent of Schools and the
School Board of North Hampton:

In the past, any pupil needing speech therapy has been referred by me to the Portsmouth Rehabilitation Center. This year we have set up an itinerant speech program within the school. This is being held weekly and at the present time we have twelve pupils who are receiving speech therapy.

All students have been weighed, measured and given eye screening tests. Thirty-six pupils were found who needed complete eye examinations. All were seen by an eye specialist and the condition corrected.

Hearing tests were done on children in the first, third, fifth, seventh, and eighth grades.

In May a pre-school clinic and registration day was held with forty-three boys and girls attending. Physical exams were given these children by the school physician, Dr. Charles B. Bailey. Four found needing minor treatment by their family doctor.

Eye and ear screening tests were given these children and they were also weighed and measured. Health records were completed on each child.

Routine physicals were done on pupils of the fourth and seventh grades plus those who participated in sports.

Tuberculin patch testing was offered all pupils in first, fourth, and seventh grades. Nearly all students took advantage of this opportunity.

Vrinalyses was conducted in the first, fourth and seventh grades.

In June an evening Polio clinic was held at the Fire Station with one hundred and eighty persons receiving Salk vaccine.

Classrooms are visited weekly and health problems are discussed.

Two hundred forty-eight home contacts were made by me during 1961.

Sincerely,

JESSIE M. SHORT, R.N.

School Nurse
